**CAUSE**

Supervised release commenced in this case on August 10, 2017, when he was released from immigration custody to the Southern District of Texas as there was an immigration attorney (asylum claim) there who agreed to take him in to provide housing. The initial plan was for the offender to move into a group home for transgender individuals; however, that did not work out, and he had to return to his attorney's residence. Subsequently, the offender was asked to leave the residence because his asylum attorney did not feel the offender respected their residence, as he was staying out all night and not returning. The offender is now residing with someone that he met as an Uber driver. The probation officer has conducted a home visit of the residence, and it is not a stable environment. The offender has no ties to the Southern District of Texas, and it appears that by remaining here, encourages him to engage in illegal risky behavior. The offender's family ties are in the Akron, Ohio area. The offender has an extensive mental health history including at least four suicide attempts, auditory hallucinations, borderline personality disorder and exaggerated psychiatric symptoms. This offender has reported seeing a psychiatrist; however, the records from have not been forwarded to this probation officer.

On January 1, 2018, the offender submitted a urine sample that tested positive for cocaine. On January 22, 2018, the offender was questioned by the supervising probation officer about the positive urine sample and he admitted to using cocaine. He also admitted to using cocaine four (4) days prior to the office visit (on or about January 18, 2018). The offender signed an Admission/Denial for on January 22, 2018, in which he admitted to using cocaine resulting in positive urine sample on January 1, 2018.

To address the offender's unstable living situation and drug use, the supervising probation officer is recommending that conditions of supervised release be modified to include the following special conditions: drug/alcohol treatment; mental health treatment, and placement at a community treatment center/halfway house. The offender has agreed to these modifications as evidenced by his signature on the attached Waiver of Hearing to Modify Conditions of Supervised Release.

Respectfully submitted:
